

APPENDIX E – CURRENT CONTENT TYPES AND TEMPLATES

This Appendix provides an overview of the University’s current website content types and templates. The information is intended to support Proponents in understanding the existing structure and functionality of the website.

The content types and templates described below are provided for reference only and do not represent final or mandatory design requirements. Proponents are encouraged to propose enhancements, modifications, or new approaches that improve usability, accessibility, and overall user experience, while achieving or exceeding the objectives outlined in Appendix D – NRFP Particulars.

The following content types and templates are currently in use across the University’s website.
